

ABOUT US

SONA INFRA TECH PVT LTD. is a name that resonates among the prominent residential and commercial buildings. Its headquarter is in Delhi and execute PAN India projects.

We are using latest equipment, technique and creating next generation energy efficient building. Parameter like structural safety, Optimum light, Acoustic, Security and Sustainability are key area we consider while designing and planning the products and services. This way we are achieving maximum comfort, luxury living and making it value for money ,for our clients.

QUALITY STANDARDS

We produce high quality of products and deliver material on time with complete quality control. We have developed expertise in execution of luxury residential buildings, Villas, Hospital, School and commercial buildings.

QUALITY MANAGEMENT SYSTEM

SONA INFRA TECH PVT. LTD. executes its projects in adherence with the requirements of its QMS effecting quality control in accordance with the provisions of its standard operating procedures & process plans. All personnel are constantly trained to ensure that quality is controlled at all stages of the operations through the established procedures & practices.

WORKING PERFORMANCE

With the future in mind, continue to invest in improvement and reinforcements to extend the life and enhance the capacity of the transmission system. Currently, the majority of transmission system is between 7 years old. Working to make the system more efficient, cost-effective and environment sound. New transmission lines and other system reinforcements mean reliable, cost-effective energy for communities across.

DECIDING ON THE BEST SOLUTION

Once some potential transmission solutions, we work to ensure first Nations, potential stakeholders and all interested parties are provided with opportunities to hear about the proposed solutions, gather information, ask questions and provide their input. Solutions are then assessed based on the feedback received as well as other factors such as cost, value community and environmental impacts.

THE POLICY

Our policy is to ensure customer satisfaction as we do not compromise on the quality of materials, workmanship, service & time. This is evidenced from our clients who have repeatedly awarded us with time bound projects of intricate nature.

UNIQUE INFRASTRUCTURE

Our company structure is unique as we are the Infrastructure contractor with own dedicated team of technicians who are permanent employees & enjoy all the benefits of the company which enable us to deliver high level of quality workmanship setting industry standards.

Our work is conducted in a manner to ensure the health, safety & welfare of employees, their families, our client & all our stakeholders. We believe in investing in the training of our employees to provide value added services in conjunction with state-of-the-art technology.

HEALTH, SAFETY, ENVIRONMENT

SONA INFRA TECH PVT. LTD is committed to ensure health & safety of its employees as also to prevent any damages to the environment, ensuring that all issues pertaining to the environment (water, soil, noise & disposal of wastes) are addressed within its business activities.

Safety Training & compulsory use of P.P.F. are provided to mitigate and manage the risks associated in the work environment. Safety officers are deputed to individual projects & environment guide lines of the company are adhered to.
