

About Us

The expert team of messengers, couriers and delivery drivers at Tezz Logistics can deliver any package of any size throughout the nation. People placing an order with our team in can rest assured that their deliveries are not only made on time but arrive safely.

Our company has experienced team of delivery professionals who understand the needs of our customers and always follow through on every single delivery. Our main goal is to streamline every single pick up and delivery service that we offer by optimizing routes and making use of our fleet of vehicles to get your package picked up / delivered across the country in the quickest way possible.

All of our offices are open 24 hours a day 7 days a week. We also have mini and large cargo vans, and box trucks in our fleet of vehicles which allows us to quickly delivery packages anywhere in India.

Our courier service specializes in same and next day deliveries on a national level. This means that if you need a package pick up or delivery anywhere in the country we strive to get it done as quickly as possible. All of your fragile and important deliveries are safe with Tezz Logistics because our delivery drivers are bonded and equipped with GPS which allows for real time tracking. You don't have to worry about your item breaking during the shipping process because we pick it up at point A and drive it to point B with no stops in between.

We also specialize in a variety of other courier services such as market place pick up , warehousing and fulfillment ,medical courier services, and same day delivery. We understand that businesses have a variety of delivery needs so we trained our couriers to specialize in certain deliveries to meet the qualifications and standards of these industries.

No matter what type of rush or same day delivery you need Tezz Logistics has you covered. Our award winning customer service and trained delivery drivers make getting your package to it's destination not only easy but gives you peace of mind that it will arrive on time every time.

Mission

We are striving to create the best required infrastructure to provide high quality and cost effective distribution network nationwide with the live visibility by following the best practice and procedures.
